

Project development phase

Sprint - 2

Date	13 November 2022
Team ID	PNT2022TMID33506
Project Name	Project - Industry-specific intelligent fire management system
Maximum Marks	20 marks

▼ IN Sprint 2 31 Oct – 5 Nov (2 issues)

IN-4 In industry, sensor sense the fire and smoke. **SENSOR & ACTUATOR**

IN-5 If the sensor detected the fire, next step is extinguishing the fire with the help of Sprinkler. **SENSOR & ACTUATOR**

⇒ Configure the connection security and create API keys that are used in the Node-RED service for accessing the IBM IoT Platform.
