**PROBLEM STATEMENT :**

Recently, it has sometimes been impossible for fire-fighting personnel to access the site of a fire, even as the fire causes tremendous property damage and loss of human life, due to high temperatures or the presence of explosive materials. By enhancing our knowledge and reduce the impacts caused on fire , the industry specific intelligent fire management system based on IOT create a solution for the people to shield themselves by fire accidents.

**EMPATHY MAP :**

Empathy map for the Industry Specific Intelligent Fire Management System gives the detailed and cleared view about the knowledge of the people after they knowing about this technology and our project .
