TEAM LEADER : GUNAVATHI S

TEAM MEMBER 1 : DHARSHINI SG

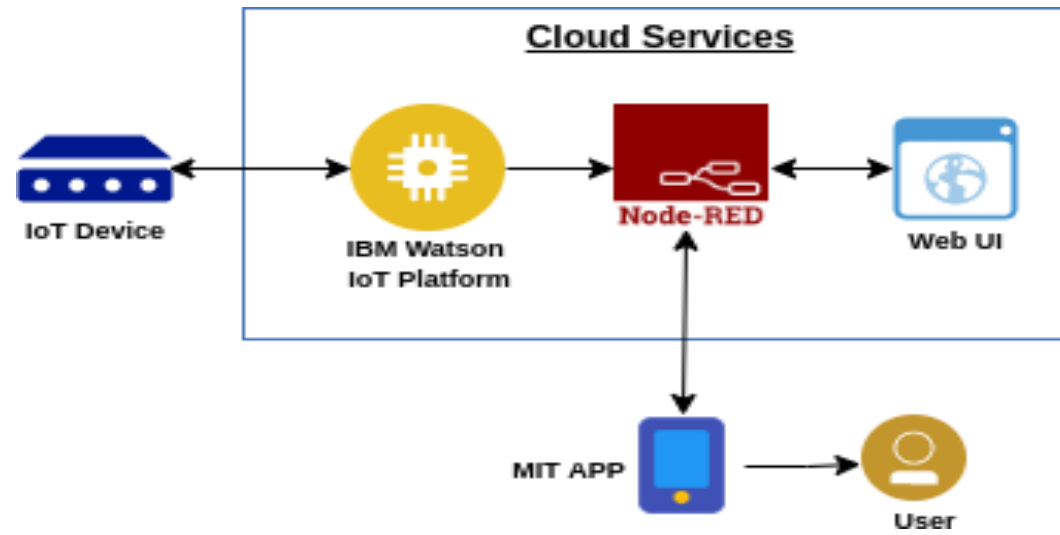

TEAM MEMBER 2 : GOPIKA A

TEAM MEMBER 3 : JEGAPRIYA P

FIRE MANAGEMENT SYSTEM

Primary purpose of a fire management system is to design, manage, plan and co-ordinate appropriate fire safety procedures to reduce the risks of fire and to ensure the safety of building occupants. A complete fire management system ensures legal compliance and protection of lives and assets. Today, the most common fire safety objectives are protection of life, protection of property and continuity of operation.
